Blossoming Bouquets – Manual testing

Page	Section	Test	Result
Home	Navigation	Logo link when clicked from another page directs back to the home page.	Tested from multiple Pages (blog, contact us, login) and this link works.
Home	Navigation	Search button yields correct results	- When a search entry is not made but the search icon is selected – an error message appears "You didn't enter any search criteria". - Searched for flower name "Rose" and any bouquet with Rose in its detail were retrieved. - Searched for "Summer" and all bouquets with summer in their name were retrieved. - Nothing other than bouquet names and details yields any result i.e. Searching for 'blog' does not yield a result even though it is present in the site.
Home	Navigation	Navigation links go to the correct pages.	All links tested (account, bag, home, blog, contact us) and all led to the correct pages.
Home	Navigation	Logged in user status appears on medium and above screens.	Confirmed using two different user accounts superuser and non-superuser – logged in status with their username appears on medium screens and above only.
Home	Hero container	Call to action "Shop Now" button leads to the "All bouquets" page.	Result confirmed.

Home	Footer	Footer stays on bottom of page on different size screens.	• Confirmed by checking all page sites using Google Developer tools at different responsive screen sizes from 300-1200 px. • Checked also on a laptop screen and an Iphone 8.
Home	Footer	Mailchimp subscription working – 1) Success message displayed. 2) Mailchimp contact list updated. 3) Error messages displayed.	1) Success error message displayed upon valid email entry; "Thank you for subscribing". 2) MailChimp contact list updated. 3) If email not entered – message appears below input field "This field is required". If an invalid email address is entered – message appears below input field "This email cannot be added to this list. Please enter a different email address".
Home	Footer	1) Facebook site link opens correctly and in separate tab. 2) Privacy policy opens correctly and in a new tab.	Both Facebook site link and privacy policy open correctly in a separate tab.

Page	Section	Test	Result
All Bouquets	Categories	Selecting each category filters the correct bouquets.	Tested all three categories (Basket, Wedding and Occasional) – all filter their respective bouquets.
All Bouquets	Bouquets Home link	When selecting the "Bouquets Home" link appearing on the top	Result confirmed – checked from "Occasional" filtered

		left of the page, from any other category or filtered result – the original "All bouquets" page is retrieved.	bouquets, "Price low to high" and "Name (Z-A)".
All Bouquets	Sort by filter	Each filter yields correct result.	Result confirmed – checked filtering by price, name and category.
All Bouquets	Bouquet	Selecting a bouquet image leads to bouquet detail page.	Result confirmed by checking 5 bouquets at random (Crisp Linen, Joyful Pink, Purple Galaxy, Summer Rays, Summer Meadow).
All Bouquets	Back to the top button	1) Changes colour upon hover. 2) Goes back to the top when clicked at any point.	1) Button changes to a pink colour upon hover. 2) Button tested mid page and at the end of the page and at both levels when selected it bought us back to the top of the page.

Page	Section	Test	Result
